RESPONSE TO OFFICIAL ACTION Dated November 19, 2002

Sir:

This is in response to the Official Action dated November 19, 2002, for which a timely response is due on or before February 19, 2003. This is a reissue application directed to the invention taught in Applicants' issued U.S. Patent 5, 913,670.

Applicants have previously elected Group 1, claims 1, and 3-7, drawn to a method to reduce injury to whales and other cetaceans. Claim 1 has been indicated as allowable, confirming the scope of claim 1 in the parent application which resulted in the issuance of U.S. Patent Number 5,913,670. Claims 3 and 7 are the independent claims remaining in consideration, and the Examiner has rejected claims 3-7 as being improper recapture.
